TOPICS, ABSTRACTS AND SPEAKERS

> BIOLUX / ORTHOPULSE

Light Accelerated Orthodontics "A game changer for Aligner treatment"

Speakers: Dr. Sam Daher and Dr. Kenji Ojima

The pre-Congress course is a joint session presented by Dr. Sam Daher and Dr. Kenji Ojima, sharing their deep experience on acceleration of Orthodontic tooth movement.

Between them they have completed more than 3,000 accelerated aligner treatments using various different acceleration methods. Today both have chosen Light Accelerated Orthodontics as their preferred method of accelerating aligner treatment.

Dr. Sam Daher will give an introduction to the science behind photobiomodulation as well as present some of the well-established research / publications.

Dr. Kenji Ojima will talk about light accelerated 3-day aligner change protocol with OrthoPulse® which he implemented in his practices. He will present his newest spectacular cases finished with remarkable reduction in treatment time and give advice on what to watch out for when accelerating treatment.

TWO SESSIONS, repeated at 14:00-16:00 and 16:15-18:15

> CLEAR CORRECT

Find Your Aligner Solution just "Outside the Box"

Speaker: Dr. Ken Fischer

Today, clear aligners can successfully treat almost any comprehensive malocclusion, although one may have to think "outside the box" to see the answer how. This presentation will present complicated, unconventional aligner cases and options for treating them with clear aligners.

ONE SESSION, 14:00-18:00

> DENTAL MONITORING

Outstanding care and practice efficiency through remote monitoring

Speakers: Alexe Espiand - Director of Sales, Dental Monitoring,
Dr. Louis-Charles Roisin - Orthodontist & Clinical Director, Dental Monitoring

Dental Monitoring gives the control back to the doctor on aligner treatments. Learn how to improve the daily life of your practice, reduce stress and improve patient outcome while reducing the number of appointments. Learn how to efficiently integrate DM in your practice, to minimize refinements, improve patient compliance and create raving fans of your practice. Discover how anticipation, optimization and customized communication leads to a more profitable practice.

TWO SESSIONS, repeated at 14:00-16:00 and 16:15-18:15

> INVISALIGN TEEN

Predictable, Profitable and Productive Strategies for Successful Invisalign Outcomes

Speaker: Dr. Donna Galante

Dr Galante will be sharing her knowledge and best clinical practices on teenage Invisalign treatments, and share her experience with the new Mandibular Advancement feature - the latest Invisalign innovation for teenage treatments, which is designed to replicate the action of commonly used functional appliances for Class II correction while simultaneously correcting malocclusion and crowding issues, without the need for elastics.

In this session Dr Galante will also share her expertise on how to take your practice forward making the most out of the potential of Invisalign teenage treatments, and the integration of iTero in your practice.

TWO SESSIONS, repeated at 14:00-16:00 and 16:15-18:15

> SCHEU-DENTAL

Set-Up planning for Aligner and Indirect bonding treatment with CA SMART 3D software

Speaker: Dr. Stephan Peylo

Dr. Peylo will present all software tools such as archiving, separation of teeth, set-up planning for Aligner treatment and placing of brackets for labial and lingual indirect bonding technique. He will share his experience and knowledge of running a digital office with the delegates.

TWO SESSIONS, repeated at 14:00-16:00 and 16:15-18:15

> SURESMILE

The Hybrid Digital Practice: expanding aligner treatment options with Suresmile

Speaker: Dr. Sean O'Callaghan, Virtuosum Orthodontics Victoria, Australia

In The Hybrid Digital Practice, Dr. O'Callaghan will discuss the integration of aligner therapy with fixed appliances using suresmile digital treatment planning. He'll review the advantages of such "hybrid" treatment plans in achieving more predictable and precise results with enhanced patient comfort.

During this 2-hour workshop, attendees will experience hands-on suresmile digital technology in the design and planning of a hybrid case.

TWO SESSIONS, repeated at 14:00-16:00 and 16:15-18:15
