The European Aligner Society has great pleasure in inviting you to participate in the **EAS Spring Meeting Venice**. Following in the footsteps of EAS 1<sup>st</sup> Congress Vienna, EAS 1<sup>st</sup> AlignerLab Vienna, and EAS 2<sup>st</sup> Congress Venice this will be EAS's 1<sup>st</sup> Spring Meeting which will be focused, once again, exclusively on orthodontic aligner therapy.

The theme of the Spring Meeting is:

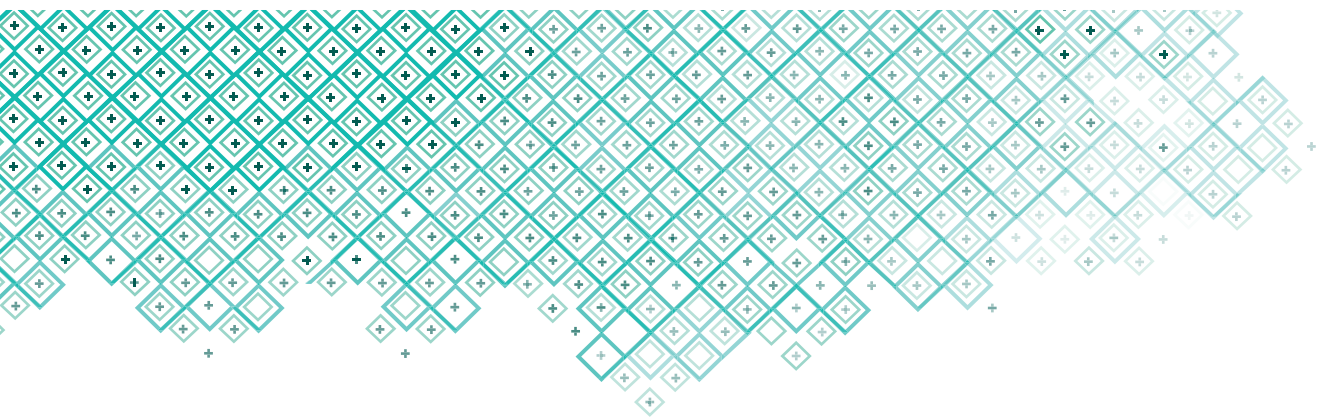

# INNOVATIONS IN ALIGNER TREATMENTS

EAS Spring Meeting aims to offer a diverse engagement for both Companies and Clinicians by inviting new and innovative speakers to present at a single one day plenary session, PLUS inviting our partner Companies to present a lecture on the Friday afternoon and follow this with a Sunday morning Workshop.

EAS will once again aim to be the main Continuing Professional Development provider for aligner orthodontists and allied professionals involved in aligner treatment delivery.

This Spring Meeting and subsequent meetings and Congresses will allow orthodontists and companies to meet on a face-to-face basis.

# WELCOME MESSAGE

FROM EAS PRESIDENT 2018/2019

Following the successful 2<sup>nd</sup> Congress of the European Aligner Society which took place in Venice a just over 6 months ago, as a sold-out event, the Scientific Committee of EAS received a consensus that 2<sup>nd</sup> Congress fulfilled its aims and objectives. I now have the pleasure to announce the Spring Meeting which will take place in Venice, Italy, on March 29-31, 2019.

This scientific event's aim is to continue along the pathway, which was created in 2016, with the goal of raising the bar of both clinical and scientific content.

An increasing number of colleagues around the world joined the last EAS events thanks to the continuous advancement of all techniques related to aligner orthodontics.

Together with the board we have decided to create an event in which we will start on Friday with a Forum of new technologies applied to aligner orthodontics. Topics in the form of presentations, that should create interest among attendees, will be followed by hands on workshops in the Friday pm presented topics on Sunday morning.

The main session will take place on Saturday, where delegates will have the opportunity to listen to expert speakers presenting lectures on topics defined by the EAS Scientific committee, and which will include some of the most interesting fields in orthodontics, from 3D diagnosis and the proper use of 3D data, to biomechanics principles applied to aligner

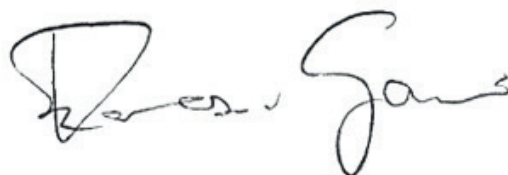

orthodontics, followed by management of open bite and asymmetries with aligners. The increasing application of aligner orthodontics in teenagers will also find place in the program together with one of the hottest topics, digital smile design and how to integrate it into a virtual treatment planning.

Our commitment is to provide a wide spectrum of information on aligner therapy, providing thus clinicians more confidence on embedding aligner orthodontics in their practice.

EAS wants to express gratitude to the orthodontic aligner industry for their enthusiasm and constant support in helping make EAS as reference and gold standard meeting for aligner orthodontics, so that excellence, best practice and research can be enjoyed and shared not only by EAS members but also by delegates.

EAS will work closely with the companies to ensure that satisfaction is enjoyed by both sides. Together with the EAS Board I'm looking forward to welcome you again in Venice for another exciting event!

**Francesco Garino**  
EAS President 2018/2019

# SPRING MEETING PROGRAM

*We are looking forward to this Spring Meeting providing a perfect forum for showcasing the latest developments by renowned experts in the field. The program will be defined by both experience and innovation. Our theme is:*

## INNOVATIONS IN ALIGNER TREATMENTS

Spring Meeting will give the opportunity to provide the best forum for showcasing the latest developments by renowned experts in their fields. The program will be defined by the theme of Innovations in Aligner Treatments.

Spring Meeting starts on **Friday, March 29<sup>th</sup>** with an afternoon session of lectures provided by Companies involved with aligner provision. The lectures will be presented by key clinical speakers from the selected Companies on the basis of Recent Innovations. Each lecture will last approx. 25 -30 minutes and will provide an introduction to the Recent Innovations and also act as a taster to the associated workshop that will follow on the Sunday morning. The full attendance Friday afternoon events will be followed by a Welcome Reception in the Exhibition Hall on Friday evening for all delegates registered to Spring Meeting.

**Saturday, March 30<sup>th</sup>**, will host a full Plenary Session with speakers having a more extended lecture presentation period. Delegates will have Saturday evening and night free to enjoy fabulous Venice by night.

**Sunday, March 31<sup>st</sup>** will be dedicated to Workshops hosted by the Companies who presented lectures on Friday afternoon. The Workshops will either be "hands on" or an in-depth extension of the Friday pm lecture. Each Company will present its workshop twice for 2 hours each so that the maximum number of delegates can attend the workshop of their choice.

Registration for the Workshops will take place from Saturday morning following the Friday lecture series and registration for the Workshops will be available all day Saturday. This way delegates can listen to the "taster" lecture and decide on their 2 workshops. Registration will be on a "first come, first served" basis. Spring Meeting will end at lunch-time, approx. 13:00 on Sunday 31<sup>st</sup> March.

# BENEFITS OF SUPPORTING THE EAS SPRING MEETING

## ABOUT EAS

The European Aligner Society is a non-profit members association. It came into existence in May 2014.

EAS was set up to provide information on orthodontic aligner therapy to clinicians and public through effective communication, and education. Information will be underpinned by promoting high standards in orthodontic aligner treatment and through research.

## PUBLICATIONS, WEBSITE AND MEDIA

- Providing a source of reliable up-to-date information on orthodontic aligner therapy and orthodontic aligner practice for patients, the public, health authorities and dental professionals through publications, information leaflets, the Society's website, the media, and in responses to personal enquiries.
- Promoting the highest standards of patient care and sharing information about orthodontic aligner therapy with patients and parents, political bodies and professional organisations.
- Providing active guidance and advice on orthodontics to individual members of the public when requested.

- Establishing the publication of newsletters and a Journal, specific to aligner therapy that will enhance continued professional development of aligner clinicians.

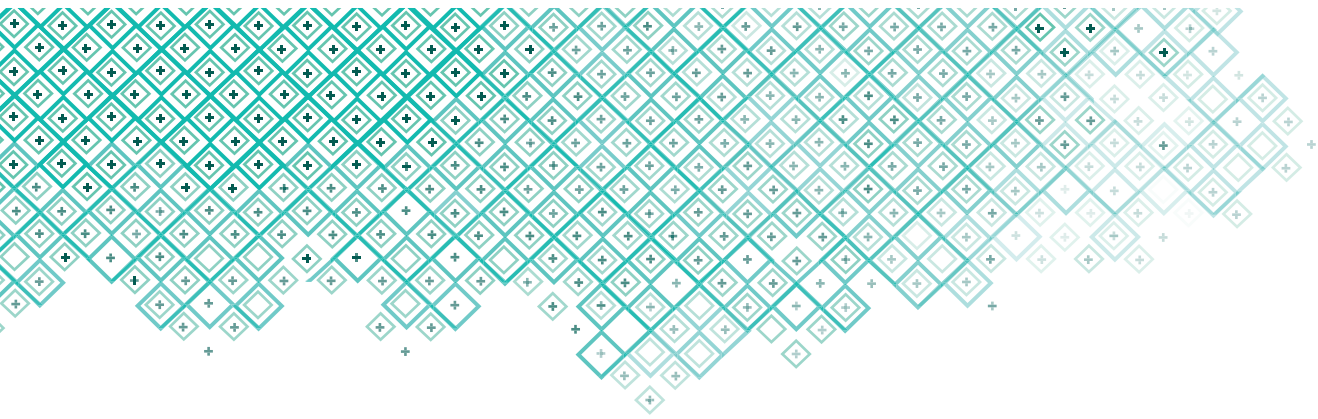

## CONFERENCE AND CLINICAL MEETINGS

- Providing continuing professional education for orthodontists through the European Aligner Congress which will evolve into an annual event.
- Developing electronic learning opportunities for the clinicians undertaking aligner treatments.
- Developing electronic Continuing Professional Development (CPD) for EAS members. In an increasingly demanding working life, electronic learning opportunities will allow busy clinicians to conveniently update and advance their knowledge.

## AWARDS AND JOURNAL

- Advancing orthodontic aligner knowledge by funding aligner research for the improvement of patient care.

# SPONSORSHIP

# SPONSORSHIP OPPORTUNITIES

## CORPORATE

EAS aims to work together with companies involved in aligner production and processes allied to aligner provision.

EAS has introduced a 4-tier Sponsorship program which allows participating companies to improve their image within the orthodontic aligner community, while helping fund the aims of the EAS.

Corporate sponsorship gives the participating companies a range of benefits while offering them the opportunity to influence, create leads, promote products or raise company profile through strong brand visibility and interaction with aligner clinicians.

## EXHIBITION ONLY

EAS understands that certain companies may not wish to engage in full-time continuing Corporate sponsorship and that their engagement may be limited to the Congress.

In this case, participation in the Congress Exhibition is welcomed and as with EAS Corporate Sponsors, the EAS congress gives the opportunity of meeting with aligners clinicians, face-to-face and to promote your products or services.
